

Experience timeless beauty

Pomegranate Regenerating Body care

Weleda Pomegranate Regenerating Body Care has been exclusively developed for women 40 and beyond. With age, your skin naturally becomes dryer and takes longer to regenerate. That's why your fabulously 40 skin needs more than just a moisturiser! The pomegranate has been a symbol of life, fertility and power since antiquity. Weleda has taken this exceptional organic fruit and gently cold pressed its precious seeds to produce an exquisitely rich and regenerating oil that promotes vibrant, firm and naturally ageless skin.

- NaTrue certified
- Dermatologically tested
- Free of synthetic fragrances, colours, preservatives and raw materials derived from mineral oils
- Products and ingredients are not tested on animals

Pomegranate Regenerating Body Care products help promote skin renewal, slow the ageing process and gently nurture your skin's authentic beauty.

in harmony with nature

Super food for your skin!

Are your hardworking hands feeling rough and undernourished? Are you in need of an exceptional treatment for stubborn dryness on elbows or feet? Then look no further than Weleda Skin Food, the must-have rescue remedy for moisturising and conditioning rough, dry skin anywhere on the body or face.

Long-used as a secret weapon by makeup artists and models, this ultra-rich, deeply-hydrating cream contains a blend of herbal extracts, including the soothing properties of chamomile, the mild antiseptic properties of pansy and rosemary leaf, and the anti-inflammatory effects of calendula flower. It also contains a blend of lanolin, enriching oils and waxes, including essential fatty acids and vitamin E from organic sunflower seed, and is completely free of preservatives and parabens.

For a deeply nourishing treatment, gently and liberally smooth your hands with Weleda Skin Food, then cover with cotton gloves and leave overnight. Whether you are a gardener, cook, hairdresser or cleaner, you'll soon find this enriching organic blend helps to protect dry skin against the ravages of the elements, and restore it to a soft and supple state. ✨

Moisture cream for men

Looking good has never been so easy with Weleda Moisture Cream for Men. This lightweight, powerful cream softens, hydrates and nourishes the skin after shaving, keeping it smooth and free of redness. Especially designed to reduce after-shave irritation, the cream absorbs into the skin quickly, locking in moisture, easing skin tightness and leaving skin noticeably soft.

Weleda Moisture Cream for Men contains marshmallow root extract to soften the skin and calm any irritations, as well as organic jojoba seed oil, an emollient that moisturises, prevents dryness and improves the skin's elasticity. Carefully selected pure essential oils, help to suppress stings and keep skin clean and freshly fragranced after use.

Weleda Moisture Cream for Men is completely free of any synthetic additives and is ideal for everyday use. ✨
